

1. Agile User Story Template

Version: 1.0

Date: 25/02/2019

User	As a <type of user>	I want to <perform some task>	so that I can <achieve some goal>
1	Developer	Collect data	Use it for training purpose
2	Developer	Clean the data	prepare data for preprocessing
3	Developer	Preprocess using NLP methods	use it for feature extraction part
4	Developer	Calculate frequencies of the words	use it to help in department selection
5	Developer	Summarise data	I get only important sentences
6	Developer	calculate the probability of most occurred words	acheive department classification
7	Developer	find word similarity	find related words.
8	User	create user inteface	user can submit complaint
9	User	know the status of the complaint	Track complaints
10	Department	know the complaint notifications	department can see when new complaint arrives
